## **DETAILED ACTION**

### ***Response to Amendment***

1. The preliminary amendment filed on August 1, 2006 has been entered.

### ***Priority***

2. Acknowledgment is made of applicants' claim for foreign priority based on an application filed in Japan on February 3, 2004. It is noted, however, that copies of the certified copies of the Japanese application have not been received in this National Stage application from the International Bureau.

### ***Drawings***

3. The replacement drawings filed on August 1, 2006 are objected to for the following reasons: (A) Figure 5 should apparently be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). (B) The replacement drawings have apparently not been labelled "Replacement Sheet" in the page header. Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicants will be notified

Art Unit: 1797

and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

4. The specification is objected to for the following reasons: (A) The references to specifically numbered claims throughout the specification (e.g. note paragraph [0017], second line and paragraph [0026], first, second, and fourth lines) is improper and should be deleted. (B) The reference numerals in the Abstract should be enclosed within parentheses. Appropriate correction is required.

***Allowable Subject Matter***

5. Claims 1-15 are allowed.

6. As allowable subject matter has been indicated, applicants' reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

7. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to teach or fairly suggest the recited gas-liquid dissolving apparatus with the recited gas-liquid dissolving chamber having the recited hole in a lower portion, nozzle, gas-liquid separating chamber, and takeout port in the recited positioning and operative relationship.

Art Unit: 1797

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. These references have been cited as art of interest to show other gas-liquid mixing systems.

9. This application is in condition for allowance except for the following formal matters:

The drawings and specification must be corrected as explained above in paragraphs 3 and 4 respectively.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
